

Mindmap:-

Leadership Portfolio Redesign

1. Problem

- Looks like a monitoring dashboard
- Overloaded with metrics
- No clear story or narrative
- Hard to understand at a glance
- Not shareable outside organization
- Employees don't see their growth or impact clearly

2. Users

- Employees
 - want clarity of impact
 - want to showcase growth
 - want career progression
- Managers
 - Need quick summary of performance
 - need meaningful insights
- Mentors
 - want to understand strengths & potential
- Future Employees
 - Need a clear story of contribution & growth

3. Solution

- Story first, data second
- Share top-level summary
- clear section-wise flow
- Visual, clean & engaging
- focused on growth, impact & learning
- Portable & shareable format

4. Portfolio Design

- Speculative Summary
- Contribution Highlights
- capabilities go with
- KPI Impact
- challenges & learning
- career trajectory

5. Key Design Principles

- Story first
- clean signal
- growth focused
- learning over individual contributions
- Simple, Scannable & engaging
- Portable & shareable

6. Challenges

- Data overload
- Lack of narrative
- Hard to share outside organization
- No focus on growth or learning

7. Outcomes

- Employees feel proud to share
- Better visibility of growth and impact
- Builds a culture of ownership and excellence
- Supports career progression and future opportunities
